

Oxford Primary School, Parent Survey 2016

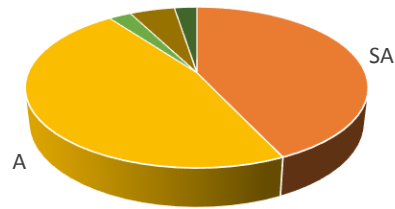

Summary

- The 2016 survey differed from previous exercises in an effort to bring it into line with additional themes that Ofsted consider important. Consequently, it is difficult to make precise comparisons with the parent views from before.
- Some statistics:
 - 158 parents submitted survey returns (which is 57% of the parent body)
 - Approximately 3000 questions were answered and analysed
 - Of the 158 submissions, 80 (approximately 50%) also included additional written comments, which proved to be useful additional data
 - A significant, but not large, number of responses to questions were unanswered or 'don't know' which also provided useful feedback
- In general, the statements were worded so that agree/strongly agree indicated positive/supportive responses whereas disagree/strongly disagree indicated parental concerns.
- In the distribution of responses shown below SA = Strongly agree, A = Agree, D = Disagree, SD = Strongly disagree, DK = Don't know, NA = No answer.

- As previously mentioned over 50% of the parents who responded provided us with written comments. These ranged from brief sentences, to pages of comprehensive and well-considered statements.
- Not surprisingly, these comments reflected the same sentiments and concerns that were highlighted in the first part of the survey. Most themes were raised by only one or two respondents, but a few areas were raised by more parents, mostly as concerns.

Clubs	10	Uniform	3
Communications	10	Newsletter	3
Homework	9	Pick-up/drop-off	3
Pupil behaviour	7	Meals	3
Pupil support	5	"Change"	3
PE	5		

- All of the comments will be important inputs for the school leadership and governors to consider in taking OPS forward.

A final thank you to all the parents and carers who participated in this survey.
